

SKYWATCH

Mark your calendar for November 9, 2023

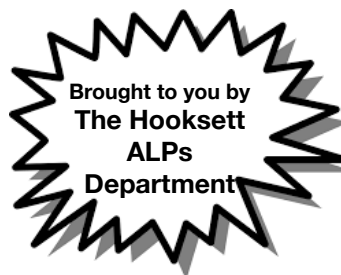

Skywatch for Hooksett students! David R. Cawley Middle School Thursday, November 9, 2023

6:30 - 8:00 pm CMS Upper parking lot: View the night sky through telescopes

NH Astronomical Society enthusiasts gather to show and teach us about the night sky. Come see and learn!

All students and families of Hooksett are invited to come view the stars, planets, and things happening in our night sky. Our guest experts are volunteers who bring their own equipment and share their time and love of astronomy with us.

Park in the front of CMS, by the main entrance and walk around to the dark lot on the side hill.

Rules:

- ALL students must be accompanied by an adult
- Park in front, walk out to event
- Only red flashlights at the watch area - to keep our night vision. You can cover a regular light with red plastic.
- No flash photography (note: Mrs. Ruest WILL snap a few at one time for the Astronomical Society and article)

Rain Date:

Cloud cover or rain/snow will postpone the event to Monday, Nov. 20th
